## Reading Matter on Every Page.

The Tax Bill. The Chronic'e, with some justice, boasts that the lower board of the City Councils have adopted its figures in amending the tax bill As the effect of the Chronicle recommendations. whether so intended or not, could only be to embarrass and cripple Mr. Emery in his efforts to sustain the corporation credit and deal with the enormous indebtedness fastened upon the city by the Bowen administration, it has doubtless been a matter of surprise to some that members of the lower board, supposed to be friendly to the present municipal administration, should be found voting to adopt the alterations of the bill proposed by the Chronicle. It must have been apparent to every member, who gave the subject a moment's thought, that the crtimates upon which they were based were wholly falla-

These members, in following the Chronicle's mischievors lead, probably had no disposition to break down the corporation credit, or to cripple the present municipal administration, and their action was doubtless from a well-meaning desire to reduce the burthen of taxation as much as possible. By some, however, it is considered a good piece of electioneering bankum to advocate low taxes and throw upon others the responsibility of voting an adequate amount to supply the absolute needs of the corporation. We all want low taxes; but every good citizen, we take it, desires to see the corporation relieved from its present humiliating position, with not a cent in its treasury and the corporation credit at an ebb where not a

It is all-important that the tax bill should be promptly passed, as affording the only resource to enable the corporation to meet its pressing liabilities; and the bill as it passed the Board of Aldermen, with the original estimates cut down smallest sum under which the corporation machine can be run for the year, and the requirements of Congressional enactments duly The Chronicle estimates, upon which the lower

board made their sweeping reductions, will not bear the slightest examination. For instance, the Chronicle put down as so much cash to meet the current needs of the corporation the large sum of \$270,000 to be realized from the "back taxes." Now, it is notorious that little or nothing will be realized from these back taxes, which are uncollectable taxes running back as far as 1819. One of our best business men, a corporation officer thoroughly familiar with the value of these assets, assured us to-day that he would not give ten thousand dollars for the entire Of the same character is the data of the Chron-

icie, upon which the lower board struck out ten cents and inserted five for the redemption of the ten year bonds, by which they set aside the remirements of the act of Congress making it imperative that these bonds shall be redeemed in ten years by an annual sinking fund.

We have already referred to other instances of misinformation in the data on which the Council Board seem to have acted, and the whole thing seems to have been a structure of

The owners of sundry hogs, geese, ducks, &c., presented a petition to the Board of Health last night asking that "the recent restrictions placed upon them" be either modified or removed, whereupon the Board of Health straightway voted to allow all owners of hogs within the city limits until the 1st of January next, to kill or otherwise dispose of their hogs, "provided that no person shall keep more than ten hogs in a pen." This is a repetition of the same absurd tarce that has been played for years by the city authorities in the matter of suppressing the animal nuisance. The owners of the hogs and geese will be no more ready to abate the nuisance on the 1st of January than they are now. They never are ready. For years they have escaped, through the neglect of the authorities to execute the laws, or by getting a suspension been made in that direction. They have known that they were violating the law; they have known what the penalties were, and there is not a shadew or shade of resson why they should be allowed to go on outraging the rights of law-

In anticipation of the war resulting in the defeat of Prussia, it is stated that the terms of peace to have been enforced by France were. that the latter should have the coal districts around Saarbruck and Saarlouis, Prussia, pay the expenses of the war, and to refund the amount of the war indemnity received from Austria in 1866; the King of Hanover and the Duke of Nassau restored to their thrones; the North German Bund broken up; the territory of Prussia reduced to the area it occupied before 1848, and a new Confederation of the Rhine established; and the Prussian port at Dantzie, in the Baltic, ceded to Russia.

It is understood that the French will defer the execution of this programme for the present.

News comes to us from San Francisco that Thomas Mooney, president of the California Building and Lean Society, has absconded, and that the concern has failed for some \$200,000. This man Mooney is the high-toned American ago as a candidate for Governor, and proposed to raise an army of ten thousand men with which to drive all the Chinese out of the State or into the river Styx. We are not surprised, therefore, to hear of his embezzlement and flight. His practice is in strict keeping with his professions.

It is said that the Israelites of New York are opening schools on Sunday to keep their chileren out of evil associations, and from being demoralized by a day of hitherto to them purpose-

Baltimore is just now priding herself over a new gambling-house, which is claimed to be nearly if not equal in splendor to Morrissev's famous den at Saratoga.

THE WINNIPEG REBELLION.-Riel, the Winnipeg rebel, has fled to the United States, and his adherents have scattered, the British mili tary expedition having reached Fort Garry. Arrests of sympathisers with the rebellion are reported, and the French half-breeds, who sustained Riel, are very wrothy, and another re-bellion is spoken of. They say they had under-stood that the newly appointed Canadian gov-ernor Archibald would be peacefully installed, and that no violence would be resorted to, as no opposition would be made. They were deceived. and hence the excitement and flight of Riel.

MASS MEETING OF FRENCH AND IRISH CITI-JENS IN NEW YORK .- An immense mass meeting of the French and Irish citizens of New York was held at the Cooper Institute on Monday evening to express their satisfaction at the proclamation of the French Republic. Speeches were made by Gen. M. T. McMahon, Hon. W. E. Robinson, Rev. Dr. O'Leary, Gen. Ryan and others. The "Marseillaise" was sung amidst great enthusiasm, and resolutions were adopted of sympathy with the new republic of France.

Buffalo shows a population of about 114,000 by the census, now very nearly finished. In 1865 it was 94,000. Buffalo is one of the cities which has not disappointed the local expectation in the

### FINANCIAL AND COMMERCIAL

The New York money market is without essential feature, the supply avaliable being am ple to meet the demand at 4 and 5 per cent. to the bond dealers, and 5 and 6 to the stock brokers, the more general rate being 5 per cent. Some 38 days' loans are reported at 7 per cent. The movement of currency to the West is unimportant. In the market for commercial paper there is but a moderate business, strictle prim passing at 7 to 9 per cent. according to the grad :

### TA TAINTED ATMOSPHERE.

Malarious fevers are most prevalent in the fall. from the earth, and the great disparity between the temperature of day and night predisposes the system. enfeebled by the summer heats, to epidemic diseases. The secretive organs, the liver especially, are apt, at this period of the year, to become inert and sluggish, and all the bodily powers require ren-ovation. The best, indeed the only protection against the morbid influences of the season is a wholesome medicated stemulant. Pre-eminent among the restoratives of this class, and indeed foremost among the remedial and preventive medicines of modern times, stands Hostetter's Stomach Bitters. Its reputation is co-extensive with the Western Hemisphere; it has been a standard article for twenty years; its sales (as may be ascertained by the revenue returns) are far larger than those of any other proprietary preparation on this continent; and the testimony in its favor embraces letters of approval from the most distinguished members of all the learned professions and from well-known residents of almost every city in the Union. These are its credentials. To state what it is doing to prevent and assuage the sufferings of the human family would require more space than can be given to the of penalties when some feeble attempts have subject here. The dyspeptic, the bilious, the peryous, the weak and emaciated, the desponding, the broken down, find in its renovating and regulating properties a sure and immediate means of relief. It is a pure vegetable specific, at once safe and polent, and for which the whole materia medica affords no substitute.

### TECLEAR AND HARMLESS AS WATER. NATTAN'S CRYSTAL DISCOVERY,

Perfectly Clear Preparation, in One Bottle, as Easily Applied as Water, for Restoring to Gray Hair its Original Color and Youthful Appearance, to Eradicate and Prevent Dandruff, to Promote the Growth of the Hair, and Stop its Falling

to Eradicate and Preven: Dandouff, to Promote the Growth of the Hair, and Stop its Falling. It is perfectly barmless and entirely free from any poisonous sub-tance, and will therefore take the place of all the dirty and unpleasant preparations now in use. Numerous testimonials have already been handed us from many of our most prominent citizens, which any one can see on calling. In everything in which the articles now in use are objectionable the Crystal Discovery is perfect.

Clear and clean as water, it does not soil the clothes or scalp, is agreeably perfumed, and makes one of the best dressings for the Hair in use. It restores the color of the Hair more perfect and uniformly than any other preparation, and always does so in from three to ten days. Virtually feeding the roots of the Hair with all the neurishing qualities necessary to its growth and healthy condition, it restores the decayed, and induces a new growth of the Hair more positively than anything else. The application of this wonderful Discovery also produces a pleasant and cooling effect on the scalp, and gives the Hair a glossy and elegant appearance.

So We call especial attention to the fact, that in every case where it does not give entire satisfaction we guarantee to return the money, though haif the bottle may be used. Such entire confidence have we in this splendid article that we will gratatiously give a trial bottle to any one desiring to try it.

A NATTANS, Proprietor, 24 and D sts. N. W. USUAL DISCOUNT TO THE TRADE.

Washington, August 15, 1270.

MR. Arthur Nattans—Dear Sir: Some time since I bought a bottle of Crystal Discovery on your own recommendation, and after a thorough trial am glad to say it has accomplished even more than you claimed. It is as clear and easy of application as water, resembling none of the dirty preparations in use. My hair, which was quite gray, has assumed its natural color after a few applications, and I cheerfully recommend its use to all needing anything of the kind, as also the cheapest article ever offered. Very respectfully, Very respectfully, JAMES HALL, 20th and E streets.

II. PHILLIPPI, ORNAMENTAL HAIR MAN-DEACTURER AND LADIES HAIR DRES-SER, having removed his establishment from the corner of 7th street to 308 5th street, offers now every inducement to purchasers. Every fashionable article in his line always on hand, and made to order.

The Law Department of GEORGETOWN COLLEGE.

WANTED:—HOUSES AND STORES TO RENT
ATTENTION PROPERTY OWNERS.—
The late act of Congress exempting from distraint for house rent household furniture and other property (heretofore the landlord's only security for house rent) makes it imperative that owners should take every precaution in renting their property, and having suitable and properly drawn contracts and leases to secure the prompt and regular payment of their rent, and would seem to suggest alike the wisdom and economy of at once having their Houses and Stores registered with and placed under the control of an energetic and experienced agent to avoid the expense of advertising, the loss of rent by property lying idle, and by bad teoants, as well as much time and annoyance to the owner. The duty of an agent being to have a new tenant secured to take possession as soon as the old one retires, to see that there are no gas or water bills left unpaid by the retiring tenant for the owner to pay, to have properly signed centracts in all cases, (without which you cannot collect rent in advance,) to make careful and stated inspections of the property. to prevent its abuse by destructive tenants, to collect the rent promptly when due, and make prompt returns of the same. Five years ago, to meet this long existing and daily more apparent necessity in the community, I established this Agency for the convenience of owners in renting or leasing their houses, (furnished or unfurnished,) the collection of rents, payment of taxes, fire insurance, &c., which affords to the property-owners of Washington and Georgetown (resident as well as non resident) a reliable and certain medium for the renting of their houses, haven and stores, and the prompt colle-tion of their rents in advance. As 1 keep for this purpose two Reassters—one for registering all houses placed in my hands for rent, and one for "orders for houses"—I can usually, at the shortest notice, furnish a good tenant for any kind of house, large or small, as well as MOTOR FOR DRIVING SEWING MACHINES The Company are prepared to receive orders. The medical profession and the public are respectfully invited to witness the operation of the Motor. s13-10
